

APPLICATION ACTIVITY

Complete the fabric cutting application with the use of Pastal Plan prepared.

Process steps	Suggestions
<ul style="list-style-type: none"> ➤ Identify the fabrics to be cut and lay them neatly on the table. 	<ul style="list-style-type: none"> ➤ As couches and sitting groups are produced by order, so the fabric that customer wants is cut. The customer has the right to return when different fabrics are cut.
<ul style="list-style-type: none"> ➤ Pastel plan is prepared with the help of templates on the fabric. 	<ul style="list-style-type: none"> ➤ When placing the templates you need to pay attention to the directions as in the plan. If the pattern is inverted and the fabric is cut off, the color tone will appear which leads an unwanted result as it should require re-cut.
<ul style="list-style-type: none"> ➤ The choice of the cutting motor in between perpendicular blade or a round blade is decided according to the state of the pattern to be cut. 	<ul style="list-style-type: none"> ➤ It is more advantageous to use a circular-blade cutting motor in straight cuts.

<p>➤ Templates are cut one by one from the edges</p> 	<p>➤ After taking the safety precautions, start cutting. It is important to remember not to forget to keep the cable of the cutting motor at the blade level.</p>
<p>➤ The cut parts are arranged and the separation process is done.</p>	<p>➤ If regular work is carried out in a workshop or operating environment and regular proceedings are carried out, there will be no disarray.</p>
<p>➤ The templates are delivered to the tailor workshop for sewing section .</p>	<p>➤ The use of delivery receipts in the delivery of the parts between the units will always prevent any subsequent confusion.</p>
