

2.2.4 Marking Tools and Equipment

Various materials used to draw the pattern on the fabric. Different tools should be used according to the sort of fabric.

Soap, stone marker, tailor Chalk: They can be easily used in drawing and marking since they are easily erased. Due to its hardness, it should not be preferred as it can cause stretching on knit fabrics.

Temporary Marker Pens: Lycra and knitted fabrics can be drawn without stretching thanks to their soft ends. Some of them disappear in 48 hours as they have the feature.

Wheel: It consists of a small rotary gear mounted on the end of a wooden or plastic handle. It is used for cotton fabrics, linen fabrics and liner synthetic fabrics.
